

### **Head Teacher (Principal) Survey**

The Head Teacher (Principal) Survey was administered to the head teachers of all 114 schools that participated in the Student Achievement Assessments. The objective of this survey was to collect the Head Teachers' information on general background, educational qualification, management experience in the school, professional engagement with school leadership such as access to and interest in professional development and interest in education, satisfaction with working conditions such as tenure, pay rate, and level and frequency of supervision. The average time taken to complete each Head Teacher Survey was 122 minutes. The interview was administered in Paper and Pencil Based Interview (PAPI) format.

Each interviewer obtained verbal consent from each respondent participating in the Head Teacher Survey. Similarly, verbal consent was obtained from the head teacher to conduct the School History Calendar Survey. All interviews were done face-to-face in Nepali.

A total of 113 respondents were interviewed out of 114. 1 interview was incomplete due to refusal by a respondent resulting in a completion rate of 99.1%.

Principal investigator Prof. Dr. Dirgha Jibi Ghimire, Population Studies Center, University of Michigan, Executive Director, ISER-N; Co-investigator Prof. Dr. William G. Axinn, Population Studies Center, Survey Research Center, University of Michigan; and Co-investigator Prof. Dr. Brian Rowan, Institute for social research, Stanford University led the project.
